

May 7, 2010

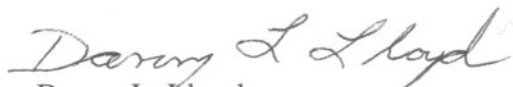

To Whom It May Concern:

Tiger Controls is one of our "preferred suppliers" for this laboratory. They source and supply a broad base of electrical, electronic and other various items They have been established as one of our selected vendors to be entered into our e-commerce system.

The scope of our relationship has been steady growing to where we anticipate between \$750,000 – 1 million dollars in contract awards to them in Fiscal Year 2010.

If you are being presented this letter, then your product line is one of the many product lines that Tiger Controls have been called upon to supply in support of our agreement.

Sincerely,

Danny L. Lloyd  
Purchasing and Small Business Program Manager
